PRIYUSH B. KHOBRAGADE

Innovative Mobile APP Developer | Front-End Web Developer |
Skilled in HTML, CSS, Java, JavaScript, and ReactJS | Database
Developer Specializing in MySQL & MongoDB | Trainer | Freelancer
| Tech enthusiast
Mumbai, Maharashtra, India

Summary

As a passionate mobile App developer and web enthusiast,
I've spent my academic and professional journey exploring the
depths of technology and its applications. My foundation was
built at ACPCE Navi-Mumbai, where I delved into Computer
Science and Engineering with a focus on IoT, graduating with an
impressive 8.5 CGPA. My technical skills are diverse, ranging from
Android Development and Database Management (DBMS) to Web
Development and Network Security.

Throughout my internships at Appdid Infotech and PHN Technology,
I honed my skills in creating efficient and user-friendly Android
applications. My projects, such as TheDoctorApp and a Real Estate
blockchain application, highlight my ability to merge innovation with
practicality, ensuring security, transparency, and user-centric design.

What sets me apart is my commitment to continuous learning and
community engagement. As an Organizer and Content Creator Lead
for the Google Developer Student Club, I've led events and content
initiatives that inspire and educate fellow tech enthusiasts.

Currently, I'm eager to bring my expertise in MySQL, MongoDB, and
full-stack development to a dynamic team where I can contribute to
impactful projects and continue my professional growth.

Let's connect and explore how I can contribute to your team's
success!

Experience

GDSC-ACPCE
Content Creation Lead of Google Developer Student Club -ACPCE

May 2023 - May 2024 (1 year 1 month)
Navi Mumbai, Maharashtra, India

Led Event Coordination and Content Creation: Organized and led events, workshops, and seminars, promoting the latest in technology and development practices to a wide audience.
